Description

Unable to configure input fields in Form section & export Form data

STEPS

1. Login as Admin
2. Select any page
3. Select any Form
4. Verify options to configuration of various input field types, including text boxes, text areas, dropdown lists, radio buttons, checkboxes, date pickers, file uploads and other standard form controls
5. Unable to configure input fields in Form section
6. Verify Form Submissions
7. Unable to export Form data

for each listing item.

### C. Form Management

- Forms shall be created, edited and managed through the admin panel.
- The system shall support creation and configuration of various input field types, including text boxes, text areas, dropdown lists, radio buttons, checkboxes, date pickers, file uploads and other standard form controls.
- Administrators shall be able to configure mandatory and optional fields through the admin panel.
- The system shall support file and document attachments as part of form submissions, with configurable file type and size restrictions.
- Form validation rules shall be configurable for individual input fields.
- The system shall allow administrators to configure the form title, description, instructions and submission confirmation message.
- Only forms that have been published shall be accessible on the public website.
- Forms shall be activated or inactivated manually through the administrative panel.
- The system shall support automatic activation and inactivation of forms based on configurable start and end dates & times.
- Inactive, expired or unpublished forms shall not be accessible from the public website.
- All form submissions shall be securely stored in the database.
- Form responses, including those received for inactive or expired forms, shall remain accessible to authorized users through the administrative panel.
- Form responses shall be exportable in standard formats such as CSV and Excel.

### D. Listing Page Management

The screenshot displays the 'Form Submissions' page in a CMS. The left sidebar contains navigation links: 'Page Builder', 'View Website', 'Form Submissions' (active), 'Master Settings', and 'Help & Docs'. Below these are 'PAGES' and 'GLOBAL COMPONENTS' sections. The main content area shows a table of submissions. The table has columns for 'Status', 'Date', 'Contact Info', and 'Actions'. Each row represents a submission with a status of '0', a date of '04/08/2026 10:14', and contact information for 'uPLBFNkC'. The 'Actions' column includes 'View' and 'Edit' buttons. A search bar and date range filters are visible above the table. An 'Activate Windows' watermark is present in the bottom right corner.

| Status | Date             | Contact Info                                              | Actions   |

## History

### #1 - 2026-08-03 03:22 PM - Nithin Raj V V

- Status changed from New to Resolved

The following features were not included in the agreed development scope and were not discussed during the development phase. As these are additional requirements identified after implementation, they should be treated as future scope enhancements rather than pending deliverables for the current release.

### #2 - 2026-08-05 11:00 AM - Nithin Raj V V

- Assignee changed from Nithin Raj V V to Anusha G

### #3 - 2026-08-05 04:02 PM - Anusha G

- Status changed from Resolved to On Hold

- Assignee changed from Anusha G to Ancy A

Keeping the bug "On Hold" and assigning to developer

### #4 - 2026-08-13 04:11 PM - Anusha G

- File clipboard-202608131610-wu3xb.png added

- File clipboard-202608131611-gbdn2.png added

- Subject changed from Unable to configure input fields in Form section to Unable to configure input fields in Form section & export Form data

- Description updated

### #5 - 2026-08-13 04:11 PM - Anusha G

- Subject changed from Unable to configure input fields in Form section & export Form data to Unable to configure input fields in Form section & export Form data

- Description updated
