4.5.3 Institution-wise Tab

Displays an “Institution-wise employee count” table with sub-views

- By Department
- By Designation
- By employee Category

Unlike the other tabs, this view requires the user to first select a District or Institution category from the filter bar and apply it — the system shows a guidance message (“Choose a district or institution category above, then [Apply](#). This keeps the institution tables readable instead of listing every facility in the state.”) rather than loading all 10,343 institutions by default. Columns once populated: Institution, District, Department, Total, Permanent, Contract, Other.
