4.2 Filtering (Zone B)

The system shall provide a filter bar with the following criteria, each rendered as a dropdown selector, allowing the user to narrow every KPI tile, chart, and table on the page to a specific slice of the workforce:

- Directorate (DHS, DME, NHM)
- District
- Institution category (Grouped institution types)
- Institution (All institutions under the grouped institution categories; no need to check ehealth started or not)
- Staff category (Doctor, Staff Nurse, Pharmacist, Lab technician, Others)
- Designation
- Department

The filter bar shall provide a “Reset” action to clear all criteria and an “Apply” action to (re-)query the page using the selected criteria. Filters are combinable (AND logic implied by the layout) and apply to the KPI tiles, charts, and the active drill-down tab simultaneously.
